Sochi OCT System

The Altus Spine **Sochi** OCT System creates a seamless transition from occiput to sacrum. The **Sochi** OCT System is comprised of polyaxial screws, hooks, rods, locking screw assemblies, and connectors. The implants may be rigidly locked together in a variety of configurations to promote fusion for a wide variety of patient anatomies.

Refer to Product Insert (PI-013) for complete system description, warnings, and precautions.
