
AltusSpine
Suzuka
IBF System
UNCONTROLLED

The Altus Spine **Suzuka** IBF System is designed as a simple, yet complete, intervertebral body fusion system. The single tray layout and range of implants reduce operating room logistics while providing the surgeon with options for the patient. Each implant is precision machined from specially-formulated PEEK polymer to provide stability and confidence.

UNCONTROLLED

Refer to Product Insert (PI-008) for complete system description, warnings, and precautions.
