

AltusSpine | Silverstone-T IBF System

The Altus Spine **Silverstone-T** IBF System features a state-of-the-art, engineered, self-distracting bullet nose as well as large rigid inserter connection for controlled implant placement. Its 5-degree and 8-degree lordotic angles accommodate the natural curvature of the spine which maximizes stability for the patient. Implants are available in precision machined PEEK and titanium that incorporates proprietary surface texturing intended to promote bone growth.

Refer to Product Insert (PI-009) for complete system description, warnings, and precautions.
